

NORTH AMERICAN FIRE HOSE

The difference is...*your* margin of safety.

Occupant Rack Hose (PR-500™)

Polyurethane (TPU) Lining / Filament Polyester Single Jacket

POLY-RACK 500™ FEATURES

- Synthetic filament polyester wrap and filler yarns are unaffected by the effects of mildew and rot, requiring less maintenance after use.
- The **Dura-Thane™** polyurethane inner lining is extremely strong and durable, while maintaining a lightweight and compact profile.
- It is designed for Emergency Fire Protection with water pressures not exceeding 225 PSI per NFPA 1961.
- **Occupant Rack Hose (PR-500™)** is intended to be used only with Listed hose racks, reels and cabinets where the specific combination of hose and rack, reel or cabinet has been investigated and found acceptable.
- Hose stored on racks or reels shall be protected from the weather and any local environmental condition potentially harmful to the hose.
- **Occupant Rack Hose (PR-500™)** is made and assembled in the USA, available with either imported or domestic couplings in aluminum or brass.
- Performance shall meet and exceed NFPA 1961 Standards.

 **FAMILY OWNED
AMERICAN MADE**

Available in 50, 75 and 100 foot lengths

** Available with Factory Mutual
